ATEX MOTORS

Lenze

On the safe side with electric motors from ATEX :

- Solid reliable ATEX quality.
- Favourable price/performance ratio as they derive from large-scale production.
- High flexibility of installation and use as a result of a large number of different designs and sizes.
- Extensive range of performance for individual tailoring to the respective application.

10J series Motors :

Nominal voltage	U_N	12 V
Nominal current	I_N	1 A (No Load)
Nominal current	$I_{N25\%}$	1.5 A (25% Load)
Nominal speed	n_N	25 min^{-1}
Max. Torque	***Tmax***	8.00 Nm (Max)

ATEX MOTORS (BOSCH design)
